## DIT - Minicams Operator - Camera Lighting Assistant

Mobile: +44 07979 156055 Email: sam@maddogs.tv

### Personal Profile:

I have gained multiple broadcast DIT and AC credits, working on location and studio shoots. Managing my own workload and tailoring camera rigs for different filming environments, I am no stranger to wrangling footage on-the-fly in the field. Over the last 2 years I have been working as a minicams operator on Gold Rush based out in the Yukon. This is a role where independence and managing various workloads is vital. I was fortunate enough to be asked back repeatedly for multiple shooting blocks throughout this year, resulting in myself spending 20 weeks working in Canada. I was proud to receive some amazing feedback from members of the production crew and the Location Series Producer. I also worked on Ice Airport Alaska (S4) and spent 20 weeks living in Alaska as the series DIT. Throughout my time on the series, I was wrangling footage from multiple cameras, minicams rigged to various aircrafts, I was maintaining the condition of all kit and producing timelapse footage with specialist equipment. Outside of this I am employed full time at Mad Dogs Television as a Kitroom Technician.

### Education:

Arts University Bournemouth 2018- 2022 / BA (Hons) Degree in Film Production (Cinematography) 2:1

See below for some of my recent broadcast credits, a full list can be found online at [www.maddogs.tv/sam](http://www.maddogs.tv/sam)
